

February 26, 2013

We had the distinct pleasure of working with Theresa Du Bois from *Improve your Drive* on the redesign and launch of our employee intranet site. She was a fantastic partner throughout the process and was truly committed to the success of our team.

Theresa's outstanding project management skills helped us keep the team on track through various stages of the project, and her attention to detail gave us great confidence in the accuracy of whatever we produced.

She has a tremendous capacity for creativity in web design, and just as importantly, she was able to tailor her style to fit within our corporate environment, creating a design that was pleasing to the eye, yet practical. We could trust that whatever content Theresa created for us would not only be solid on first attempt, but also that she would drive it through to be perfect, from our perspectives, upon completion.

We truly enjoyed Theresa's professionalism and passion and look forward to an opportunity to work with *Improve Your Drive* in the future.

Sincerely,

Kevin Aman
